

### **Lars Reese-Hansen, MSc (Environment and Management)**

Lars has worked for the provincial government since 2004 serving in several capacities, all associated with ecosystem biology. Initially he worked on ungulate winter range conservation projects in the Skeena region. Then in 2006 he moved to Victoria has worked on developing policy and procedures for various conservation authorities under the *Forest and Range Practices Act's* Government Action Regulation with an emphasis on 'fisheries sensitive watersheds' and 'temperature sensitive streams'. Prior to joining the provincial government Lars operated a small natural resource management consulting company in NW BC and was heavily involved in a full range of watershed restoration activities (e.g. stream channel, riparian, and road/hillslope restoration), and forest and fisheries management issues. Lars has had a long standing interest in sustainability, watershed management, ecosystem monitoring, and land-use planning. When not at work you can find Lars cycle touring, (teli) skiing, pursuing photography and videography (a new hobby), or checking out the latest and best breakfast restaurants. He also enjoys being a dad to his 15 year old daughter.
